

MEMORANDUM

Date: July 29, 1982

To: Mike Duvall, SLRO, Rick Roberts, PBRO & Burt McCullough, SRO

From: *PM* Paul Meiburger, WMP

THROUGH: Art Groner, WMP *AG*

Subject: Safety-Kleen Inspection Report

Please amend your inspection report for Safety-Kleen to include the requirement in 10 CSR 25-7.050(2)(A)4. cross-referenced to 10 CSR 25-7.050(4)(A)3. which requires underground tanks to have some type of leak detection system installed. The way we will handle this is that in the cover letter we will ask them to propose to us what type of leak detection system they plan to use and then the regional office and the central office will review their proposal and then discuss over the phone whether to approve or disapprove the proposal. If you have any questions or comments, please call.
